DESCRIPTORS Academic Libraries; *Doctoral Dissertations; Higher Education; *Library Collections; Library Materials
IDENTIFIERS *State University of New York Albany

ABSTRACT

This cumulative bibliography of State University at Albany (New York) doctoral dissertations, which spans the years 1979-1989, is not simply a compilation of previous supplements. It is based on an examination of the University Libraries' doctoral dissertation collection as reflected in the online and printed library catalogs. It is also the second of two compilations. The publication is divided into eight major categories which correspond to the colleges and schools within the university. These are the: (1) College of Humanities and Fine Arts; (2) College of Social and Behavioral Sciences; (3) College of Science and Mathematics; (4) School of Criminal Justice; (5) School of Education; (6) School of Public Affairs; (7) School of Public Health Sciences; and (8) School of Social Welfare. The departments are listed alphabetically under each category. Entries follow the departments and are arranged alphabetically by author's last name. Each entry includes author, dissertation title, date of publication, and location of document by its call number, which refers to the microfilm edition of the dissertations. The doctoral dissertations listed in this bibliography are available both in hard copy in the University Library Archives and on microfilm at a number of libraries on campus. Author and subject indexes have been provided to assist users in readily identifying dissertations on their topic. (MAB)

INTRODUCTION

This is the second cumulative to the bibliography of doctoral dissertations completed at the University at Albany, State University of New York. It covers the years 1979-1989. The first cumulative publication was for the period 1963-1978. Supplements were issued for subsequent years 1979-1981, and 1982-1985. *The second cumulative bibliography is not simply a compilation of previous supplements*, but instead is based on an examination of the University Libraries' doctoral dissertation collection as reflected in the online and printed library catalogs. Personal interviews were conducted in some instances to ascertain and identify doctoral dissertations completed at the University at Albany. Unlike the first cumulative bibliography compiled by Edward C. Oetting, the second cumulative publication provides not only author access to dissertations, but a subject index has been included to assist users in readily identifying dissertations on their topic.

The publication is divided into eight major categories which corresponds to the colleges and schools within the University at Albany. Departments are listed alphabetically under each category. Entries follow the departments and are arranged alphabetically by author's last name. Each entry includes author, dissertation title, date of publication, and location of document (call number).

Doctoral dissertations listed herein are available in hardcopy in the University Library Archives and on microfilm in the Interactive Media Center of the University Library, and in the Governor Thomas E. Dewey Graduate Library for Public Affairs and Policy on the downtown campus. All call numbers listed in this cumulative bibliography refer to the microfilm edition of doctoral dissertations. Call numbers with the prefix "EXT" indicate that the doctoral dissertations are housed in the Dewey Graduate Library. Future updates to this bibliography are planned by the author at appropriate intervals.

ACKNOWLEDGEMENTS

The author wants to thank Eileen D'Alessandro and Grace Hines for their many hours of secretarial support in the preparation of this publication. The compiler would also like to recognize the Cataloging Department at the University at Albany for processing the doctoral dissertations and producing the bibliographic entries necessary for the compilation of this cumulative bibliography. Finally, thank you Michael Knee for proofreading the document and offering editorial advice.
